Hongsong, March 10th, 1889. Tax foreign trade of China for the year 1898 was the largest on record. The Custunus report and annual returns have not yet been issued, but the quarterly returns give us figures for the various ports, from which the progress made by each may be ganged. Special interest attaches to the Newchwang returns, in view of Russian netivity in that guarter and of Lord CHARLES Berestord's declaration, in connection with the open door question, that in the North the door had already been "shut, "absolutely shut." That singular declaration was made at Shanghai, and his Lordship stook the opportunity in one of his speeches. at Hongkong of rectifying it and explaining

that it was only made with reference to the grailway question; but even so, it turns out to have been quite wrong, for the railway from Shanhaikwan to Newchwang is, after all, to be constructed with British capital raised through the Hongkong and Shanghai Bank, Lord CHARLES BERESFORD'S un-

fortunate expression affords an example of the danger of using imperfectly understood catch phrases.

As was to be expected, the activity prevailing at Newchwang is reflected in the trade returns. The shipping entered dursing the last three years has been as follows: 1896, 332,208 tons; 1897, 365,432 tons; god 1898, 413,885 tons. The amount of duties collected shows a similar progression, the figures for 1896 being Tla. 566,702; for 1897, Tis. 568,547, and for 1898, Tla. The increase has been greater stood before the war with Spain. in exports than in imports, the import market having been adversely affected in the earlier part of last season by extreme stringency of money and fears as to the outturn of the crops, but during the latter part there was a marked revival. The figures as published, however, only tell part of the tale, the vessels cou-

to the Customs regulations and therefore not being included in the returns, but trade of that kind must contribute its quota to the prosperity of the port. Foreign merchants established at Newchwang cannot have much reason as yet to regret or oppuse Russia's appearance upon the scene, that being the principal cause of the increased activity of the port; nor is it likely, that they will have cause to regret it in the future, for whatever political changes may Business Hours: 9 a.m. to 5 P.Ms take place the British Government may be trusted, under the influence of public opinion, to see that all commercial privileges hitherto enjoyed by British subjects shall

The liability of the Insurance Companies in connection with the recent fires at Mimila is being discussed. The Manila Times says :-Most, if not all, of the ordinary tire insurance claim in ease of fires due to " war or civil commotion of any kind." This, as far as we can see, leaves no room for discussion at all. It seems to us to completely exempt the insurance compolicies on property destroyed in the recent conflagrations in Manila. As to whether the United States Government can be called on to pay for the loss, that is a question less easy to answer. In fact, a decision will probably not be arrived at until after long and careful investigation by able jurists. There are innumerable arguments and precedents both for and guaranteed to be pure Cognac, the against. Our own opinion is that the Government, having assumed responsibility for the main tenance of order in Manila, is liable for loss caused by these fires, but the Government may argue that, if this principle were accepted unreservedly, everybody in the country and many outside of it have lost by the disturbances, and | THE BILLIARD AND TENNIS TOURNAMENTS. might claim on the same ground.
